Vegan

Sustainable

### ABOUT THIS BOTTLE

AITIA is a project from Laura Brennan Bissell that is focused on the Underwood Mountain terroir of the Columbia Gorge. Laura's vineyards sit at 1700 feet on the Washington side of the Columbia Gorge. The estate vineyards are organically farmed, dry-farmed, own-rooted, and no-till. The vines are untied, allowed to grow naturally. The property is planted with natural cover crop. This is truly organic, sustainable viticulture.

The 2022 Gewürztraminer was native yeast fermented and saw 18 months of ageing in neutral oak before bottling. The wine is unfinned, unfiltered, and saw a minimal amount of SO<sub>2</sub>. This dry, white wine is crisp and structured with beautiful aromatics typical of the variety but with restraint on the palate.
