A closer look...

Vineyard: A clay-limestone soil, shielded from maritime influences to the south by Mont Aurélien, benefits from a climate imbued with a gentle continental touch. This area is renowned for being one of the most pristine in France, owing to the desiccating impact of the Mistral wind, which safeguards the vineyards from diseases.

Soil: clay-limestone

Age of Vines: Average age of vines: 30 years

Vineyard Size: 50 ha

Fermentation Methods: Low-temperature stabulation for 18 days, followed by fermentation at temperature-controlled in stainless steel tanks.

All about this bottle

A vibrant, pale pink hue sets the stage, unveiling an aromatic bouquet of orange pulp and apricot, leading into a harmoniously balanced palate that culminates in a lively, zesty finish.
